

Architectural Design Support

With the pressure to deliver more options and develop larger ideas within tight deadlines, the strain of the early design stages of projects can often be counter-productive to the creative process. Atlas provides dedicated support to architects throughout the design development process, giving them more time to explore concepts and develop design options.

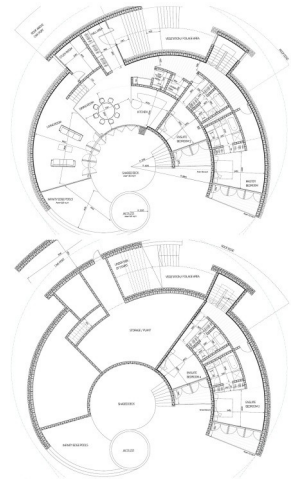

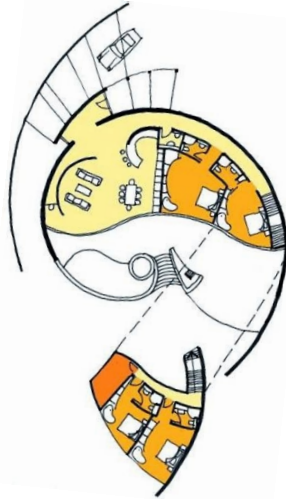

Atlas utilises time-zone differences to extend the productivity of a studio, turning around
e i] W _ ' h U g _ g ' c j Y f b] [\ h ' k \] ` Y ' h \ Y ' U f W \] h t e r m h Ñ g
